MAN COMMITS SUICIDE IN ROW WITH WIFE

Murder, Kidnaping, Riots Mark Chicago Election

MACHINE GUNS USED TO INTIMIDATE VOTERS AS REPUBLICANS SCORE WIN

BULLETIN
Incomplete returns late last night indicated that Mayor Thompson's forces were defeated.

CHICAGO, April 10.—One killing, scores of kidnappings, dozens of riots, general intimidation of voters and a few cases of the robbing of the ballot boxes in Chicago, marked the most hectic election in history today.

In the election, the Republican candidates supported by Senator Charles Deneen, were swept into office by pluralities ranging from a few hundred to as high as 200,000.

Octavius Granady, Deneen candidate for Ward committeeman, was shot to death by four men who fired sawed-off shotguns from a passing automobile. Granady was a negro.

Throughout the day, hundreds of reports of violence were received at the offices of the election commissioners. Police Chief Michael Hughes and District Attorney George E. Q. Johnson.

Although police made every effort to halt the reign of terror which gripped the polls, few arrests were made.

On the near North Side, one block from the exclusive Gold Coast, an automobile containing four men, with a machine gun mounted in the tonneau, drew up to the curb. The gun was trained on the line of voters waiting to cast their ballots.

A hurried call was sent to the election commissioners but when the detective bureau squad arrived the men had fled.

Two reports of election officials being driven from their posts at the point of guns were brought to the authorities. The men who called up the polling places fled before the police arrived.

Thirty thousands watchers guarded the polls but in the precincts where they are numerous hoodlums, and in other districts adjacent to them it was practically impossible to protect the ballots.

Numerous kidnapping of candidates, factions and party workers and official watchers were reported to the police. The day's events were a climax of the most bitter party strife in the history of Chicago and the state of Illinois.

Angel food cakes! easy to make

When grandmother made angel food cakes the recipes of her day were inaccurate. It took years to know her oven.

But today, when you accurately measure and mix ingredients, you believe your cakes should always be good. They will be, unless you're guessing at the oven temperature which is the chief cause of rubbery angel food cakes. They must be baked at 325 degrees.

All the modern gas ranges have the Oven Temperature Control. It keeps the oven at exactly the temperature for which it is set. You place the angel food cake in the oven, set the Control for 325 degrees and leave the kitchen for an hour. The monotony of watching the baking vanishes. Meats, pies, and even a whole meal can also be baked with the same ease and freedom.

See the modern gas ranges with the Oven Temperature Control.

Foreign Market May Check Films

HOLLYWOOD, April 10.—In the face of adverse legislation in foreign countries, affecting American-made motion pictures, approximately 230,000,000 feet of American film was sent to foreign markets in 1927, an increase of 11,000,000 over 1926. It was declared by N. D. Golden of the bureau of foreign and domestic commerce at Washington, D. C. in an address at the convention of the Society of Motion Picture engineers, which was in session today.

More than 30 per cent of the entire revenue from American-made pictures comes from abroad and any marked curtailment of this would be strongly felt by the motion picture industry, said the speaker.

Lakeport Jail Break Barred

LAKEPORT, April 10 But for one contingency, brick walls would not have been made a prison, nor iron bars a cage for Kay and Thomas Mansfield, brothers.

Both were in the county jail at Lakeport, serving a two-year sentence for keeping two high school girls out all night on a wild ride.

Their confinement was irksome. Seizing a table knife and fork, they began to bore at the thirteen-inch walls. For weeks they kept at the task, spurred on by an ever-acknowledging hole that finally pierced the wall.

"Hello, greeted a jail trusty as the boy straightened himself. The sheriff's office, it seemed, had anticipated the break.

Tried before Judge M. S. Sayre in Superior Court, the youths were given five years probation.

REAL BATTLE IS HIGHLIGHT IN HOLT FILM

When Jack Holt, as Tom Feltons, and Pat Harmon, as London Charlie, met in a fist encounter in making "The Warning," there was a real battle. They faced each other in a set representing an underground room in the "House of a Thousand Delights" in Hong Kong, China. Both men are capable athletes and know how to handle their fists. Each had enjoyed a summer in training and was in the pink of condition.

Before the making of the sequence they engaged in a sparring bout to get warmed up for the action. When they clinched before the camera they became so interested in looking that they forgot they were acting and went at it in earnest.

"We went to biff each other in a friendly fashion, but our boxing training got the better of us," they explained, as they were assisted to the emergency office of the studio lot for treatment of minor bruises, a black eye and bloody noses.

According to the script, Harmon is located in the fist battle by Holt, who has the role of captain of a tramp steamer. The blow which sent Harmon to the rough pavement was a terrific one. He lay stunned for several seconds. Then the instinct of a true fighter brought him gamely to his feet.

"Cut," shouted Director George B. Sitz. "You're a good fighter, all right, but so far as this picture is concerned, you are still unconscious."

This Columbia Pictures production will be shown at the Richmond Theatre today and tomorrow. Dorothy Reiver appears opposite Holt and the exceptionally strong cast includes Frank Lackey, Eugene Strong, George Kova and Norman Trevor.

Other features include "Listen Lena," a comedy screen, "Buried Treasure," and current news events.

Coolidge Opens Scout Meeting

SAN FRANCISCO, April 10.-Greetings from President Coolidge opened the first business session of the Eighteenth annual meeting of the National Council of the Boy Scouts of America, here today.

"My greetings and best wishes to the National Council of the Boy Scouts," said a message from the President read at the convention. Telegrams were also read from governors of a score of states.

The cast is H. B. Warner, Anne Q. Nilsson, Alice Joyce, Niles Asther, Carmel Myers, Mary Nolan, Norman Trevor, Louis Wolheim, Lionel Belmore, and many others. The story is of a father and son devotion to a living, breathing thing, a gripping cross section of modern life, but above all, a story of a father's love for his son, and the story of a father's love for his son, and the story of a father's love for his son.

In addition to the finished acting of Warner, as "Sorrell," Miss Nilsson as his faithful wife, Miss Joyce as "Fanny Garland" Asther as the younger "Sorrell," Miss Nolan as the youth's sweetheart, and the rest of the cast, picturegoers find satisfaction in the fact that part of the story was filmed in England at the places which figure in the novel, Westminster Abbey, London's streets and historic buildings, the Thames and the English countryside, magnificent backgrounds for "Sorrell and Son."

Warner, always a director who does not slight the minutest detail in weaving a convincing story into film, excels himself with his latest production. Without detracting from the main theme of father-son love, Brenon has managed to create a fast moving picture.

Other features include a Fox "Variety," and current news events.

PICTURE AT CALIFORNIA WINS PRAISE

Powerful in theme, spectacular in action, and with one of the few truly anti-star casts ever assembled for a motion picture, "Sorrell and Son," which is playing at the California Theatre, has fair to go down in screen history as a rare combination of popular entertainment and art.

"Sorrell and Son," which is taken from Warwick Depping's best selling novel of the same title, is a sterling Brenon production for United Artists, and critics agree that the director has surpassed even his previous outstanding successes such as "Victor and the Sea" and "The Sign of the Cross."

The cast is H. B. Warner, Anne Q. Nilsson, Alice Joyce, Niles Asther, Carmel Myers, Mary Nolan, Norman Trevor, Louis Wolheim, Lionel Belmore, and many others. The story is of a father and son devotion to a living, breathing thing, a gripping cross section of modern life, but above all, a story of a father's love for his son, and the story of a father's love for his son.

EASTBAY PHONE BOARD SELECTS CITY DELEGATE

The directorate of the Telephone Users' Protective Association has been completed with the election of Fred N. Morcom as a director of the group. It was announced by W. Herbert Graham, president in Oakland.

All cities from Richmond to San Leandro are now represented with one or more members on the board. Besides Graham and Morcom they are: Claude E. Clark, Richmond; Judge W. J. Gannon, San Leandro; Cora B. Harding, Berkeley; Ralph S. Hawley, Emeryville; Charles A. Nesbitt, Oakland; F. R. Neville, Alameda; and Carlton A. Osgood, Oakland.

Morcom was named treasurer and selected the Central National Bank of Oakland as depository of the association's funds.

Money will accrue from a subscription campaign now about to begin. It was said by Graham. Under the financing plan both residence and business telephone users will be given an opportunity to assist in paying for legal and engineering experts to sift all phases of the telephone rate situation as regards the east bay area.

"I have always believed the telephone matter should be in the hands of citizens' committee," said Morcom. "I am happy to become a member of the board and be associated with those who are taking an active part in the fight to prevent an unjust telephone rate."

The association will sponsor the first big public luncheon to discuss the telephone fight at Hotel Oakland, April 26. Lester Ready, who is in charge of the engineering investigation of the rate problem for the railroad commission, will be one of the speakers. Mayors of all the cities in the east bay will be guests of the association as will the city attorneys.

Service

from the customer's viewpoint.

This recognized fundamental of successful modern business is largely measured by the satisfaction of those it serves—assurance of honest value, prompt delivery, personal attention to special requirements or adjustments and countless other qualities in service. In the mass distribution and speed of today, many of these qualities of service may easily be pushed aside to the detriment of customer relationships.

Individual contact expressing personal interest is recognized as an important factor in service from the customer's viewpoint—and anything that can be done by personal contact can usually be done better by telephone because it's quicker and costs less.

CHILDREN OF PRE-SCHOOL AGE TO BE EXAMINED HERE MONDAY

Examinations for children of the pre-school age will begin next Monday at the Richmond Health center, according to announcement made yesterday. All children of the Richmond district entering school for the first time will be examined during the two weeks.

In speaking of these examinations, Mrs. Anna Willis, school nurse, yesterday declared:

"The pre-school examinations conducted by the Parent-Teacher Association, with which the Bureau of Child Hygiene of the state department of public health is cooperating, is as much for the benefit of the parents as it is for the children. While the primary object of the round-up lies in the discovery of physical defects in children who will enter school next fall, and securing their correction, the presence of parents at the examinations is productive of the most beneficial results."

"Every parent has a biased opinion of the physical and mental status of his own child. A careful physical examination by a skilled practitioner of medicine will reveal hidden defects, the presence of which the parent has no knowledge. Parents are urged to be present at these examinations, not only for the purpose of watching the procedure but also for the purpose of learning how properly to care for their children."

"Many cases of illness can be prevented if proper precaution are taken at the right time. It is the purpose of the examinations to give the parents full information upon many vital subjects relating to child hygiene and parents are certain to profit through their attendance upon the activities associated with the pre-school round-up."

Home-Making Hands We Enjoy Serving

Behind our busy counters the World seems made entirely of hands. Daintily gloved fingers that unerringly find their way to articles of beauty and distinction, hands roughened by housework, childish fingers that tug impatiently, men's hands that grope uncertainly among women's things.

We serve a world of hands, but it is the home-making hands that we strive most earnestly to please—hands that must cook dinner, smooth childish bumps and coax smartness into a made-over frock.

SPORTS

HISTORY OF BEARDED TEAM IS RECOUNTED

Highly touted and widely advertised, the Bearded Baseball Club, House of David baseball club, will arrive here for their contest Friday with the Richmond Sunnies. The game will be played in the First street grounds.

The gentlemen with the hirsute appendages and flowing locks have been barnstorming two years and during that time have acquired a remarkable record in matter of games won.

Where are they from and how is the club gotten together? This and many other questions are asked constantly by the fans.

About 40 years ago a religious sect started a colony on the shores of Lake Michigan. Today there are approximately 1600 people there.

They believe in the Samsonian idea, in that they shall remain as the Lord intended them to be. The hair is allowed to grow profusely.

It will surprise many of you to know that each and every one of the children, both boys and girls, are taught some sort of a trade, so that when they take up the bonds of matrimony they will be in a position to be accepted as an asset to the order rather than a liability.

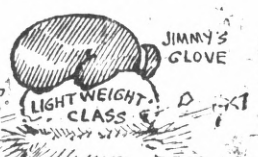

The boys are so highly talented in and along the lines of skilled labor that they can usually give cards and spades to the average mechanic. The girls, even the

Golfers Play Qualifying Round Sunday

Golfers at the Contra Costa Golf Club started last Sunday to qualify for the "Championship" Tournament. Low medal score for the 18 holes was obtained by Jack Graham of Crockett, with George Wilson a close second by one extra stroke. Bill Owsley, Dr. Arentz and William Lewis, 1927 champion, followed in close order. The last of the club-wielders will qualify next Sunday, after which the sixteen lowest will play off for the 1928 championship. The next highest 32 players will complete in the second and third flights for appropriate prizes.

The Contra Costa golfing calendar at Pacifico for April is further filled with various other tournaments. On next Sunday, the Exchange Club of Martinez will compete in their annual classic. On the 22nd, the Shell Oil Company and the Associated Oil Company, both of Martinez, clash for Oil Refinery honors. Following on the 29th, the C. & H. Refinery at Crockett meet their San Francisco Office Force.

For the first time in the history of the club, members are

Two players of Crockett, Bill Owsley and Jim Knapton, are practicing regularly on the course. Dr. Arentz and M. The House Committee of the Contra Costans is also active with plans for April, with a scheduled house party within a few weeks. Dancing, bridge and indoor golf is promised.

BEAVERS WIN FROM ACORNS

Oakland lost the opening game to Portland yesterday by a score of 7 to 6. Wilbur Cooper, Del Howard's pitching choice, was hit consistently by the Beavers, who collected 13 hits while the Oaks were getting six off French and Warhop.

An eighth inning rally by the Beavers scored four runs and fell short by one run of tying the count.

Epidemic Of Baseballitis Breaks Out

NEW YORK, April 10.—That annual spring rash, which only a world series can cure, broke out tomorrow, in a single afternoon it will sweep the town and even the backlots, where there are no home teams to be cheered, the epidemic will rage. The patient will gather nightly around bulletin boards or tune in on the radio for temporary relief.

The baseball season will open officially with games in each city and interested fans in thousands of communities, anxious to know if Babe or Lou "socked one" and how Andy is "filling 'em" at second base.

EX-GOVERNOR DIX DIES IN NEW YORK

NEW YORK, April 10.—John A. Dix, Democratic governor of New York state from 1910 to 1912, is dead at the age of 67. He passed away here last night following an illness of three weeks. Death was due to heart disease, complicated by ulcer of the stomach.

Ed Sullivan's SPORT WHIRL

TOM HEENEY DOES A LITTLE HAND-BITING
Tom Heenev, the solid man from Down Under, hand-picked challenger for Gene Tunney's championship, has suddenly become voluble. Scurrying in Paris, Heenev tells the Rue de la Paix that he believes he would stand a better chance of winning if the fight were held outside of the United States.

Then, with charming simplicity, the solid man from Down Under goes on to say that when he wins the title he will fight six or seven times a year.

I should say that Tom Heenev's opening remark is in exceedingly poor taste. I should say that his second remark lacks even the saving grace of originality.

Having been given precedence over American-born challengers, it is believed the solid man to thus roam the Continent making cracks about the fairness of American fight fans. In fact, American fight fans have suffered more from mediocre foreign heavyweights than their literary contemporaries have suffered from mediocre foreign lecturers.

Heenev has evidently forgotten that his right to the title fight was based on a somewhat sketchy decision he received over Johnny Ricko at Detroit. An American referee gave him that decision.

And it was because American fight fans resented unfairness to Heenev in his first Pacific fight that the solid man from Down Under was continued in the heavyweight tourney.

No matter how you regard the situation, it is hard to understand what Tom Heenev means when he says that he would have a better chance of beating Tunney if the fight were held out of the United States.

However, you can depend on it that Heenev will deny that he ever said any such thing when he is pinned down to those remarks. He'll swear up and down all around that he was misquoted.

HE OWES TUNNEY VOTE OF THANKS
"I appreciate the fact that Tunney is a brainy boxer, but if ever I could get him outside of America I might win," was Heenev's exact statement to the United Press in Paris.

That sounds as though the solid man is preparing a hand-made libel for future reference, doesn't it? He is pointing out to his countrymen that the bloomin' Yanks really have no sense of fair play. The nerve of the big egg!

On the poorest record of accomplishment any heavyweight challenger has ever compiled, Heenev was picked for the Tunney fight because Gene personally sponsored his cause.

Later on, in the same interview, Heenev says:—"My nine fights in America all taught me something. I always learn with every fight."

It is to be inferred that modest Tom from Down Under means that he learned that Americans are the biggest saps in the world. We must be at that.

NEW YORK CLUBS HAVE FANS HOPPED UP
For the first time in several seasons, the home-coming of the three New York baseball clubs is being awaited with keenest anticipation.

Brooklyn, thundering along at full speed under a full head of pitching steam, has been one of the sensations of the training camp circuit. The slugging Al Tyson has supplied a punch that has been lacking in other Dodger campaigns, and the residents across the bridge actually feel that this is to be Uncle Robbie's year.

The Giants, playing the finest ball they have ever flashed in training, with Andy Cohen filling the ample shoes of Rogers Hornsby, and Roush, living up the outfield, are also headed home to a sympathetic gallery.

And the Yankees, retaining their punch as they move back into the North, are always of dominant interest here. The fans have a hunch that Babe Ruth, who gave up homers for Lent, will lift the embargo after Easter Sunday.

MAYBE CHARLIE STONEHAM WAS RIGHT
To date the Giants seem to have benefited in every respect by the Hornsby trade.

Cohen is playing great ball at second base; Hogan is backstopping with more effectiveness than any Giant catcher since the halcyon days of Frank Snyder.

It would be embarrassing if the baseball writers had to send long, personal letters of apology to Charlie Stoneham, wouldn't it?

Only 1 Pauper In Texas County

MERTZON (Tex.) April 10.—The only pauper in Irion county, Tex., is likely to be made wealthy. This west Texas county, embracing an area of approximately 1,000 square miles, for years had only one person to support, Fred Saunders. The county does not maintain a poor farm and so Fred's living expenses were met out of the county funds.

Fred lives in a shack a short distance from Mertzon. He owns a sixteen-section tract of land on which his house is located. The land, however, is a barren stretch and was absolutely worthless until recently, when oil was discovered in Irion county. Several lease offers of sizeable sums have been made to Fred, but he is holding out for more money.

\$10,000 LOVE SUIT AGAINST PERINO FAILS

Superior Judge H. V. Alvarado yesterday denied the plea of Enrico Palmieri for a judgment of \$10,000 against Mike Perino, Richmond contractor, for alleged alienation of the affections of his wife, Stella. The suit was tried in Martinez two weeks ago.

In finding for the defendant Judge Alvarado held that the statute of limitations operated against Palmieri on one cause of action in which he asked \$10,000 damages for alleged association of Perino with his wife but held that he did not operate against the second cause of action asking an additional \$10,000 damages for loss of his wife's love.

Damage on the second plea was denied when the court held there was no testimony substantiating claims of Mrs. Palmieri of Perino's alleged association with her.

Mrs. Palmieri, divorced from the father of her four children, was Palmieri's chief witness. Perino, she claimed was the father of a son born to her, now 16 months old. The contractor she said promised to marry her when she divorced Palmieri.

Perino denied the woman's charges categorically.

Many Exhibits Are Planned In Long Beach Fair

LONG BEACH, Calif., April 10.—The library movement and the increased scope of its service, especially in reference to adult education, will be vividly portrayed by the California State Library Association at the Pacific South-west Exposition in Long Beach.

The association, at its annual convention in Riverside last week voted unanimously to participate in the world university of culture and commerce here this summer, and authorized the appointment of a special committee to prepare an exhibit.

Mrs. Theodore R. Brewitt, librarian of Long Beach, was named chairman of the committee with Willis H. Kerr of Pomona College and Miss Faith Holmes Hyers, publicity director of the Los Angeles Chamber of Commerce, as members.

Ecuador will have one of the most interesting of the many foreign exhibits promised for this summer's attraction. A reproduction of a portion of the presidential palace at Quito, capital of Ecuador, will feature the Central American republic's participation, according to Dr. V. M. Egas, Ecuadorian consul at Los Angeles.

Plans for the exposition are proceeding with alacrity. J. David Larson, general manager, announced today. Ground breaking exercises are scheduled for May 12 and will be accompanied by a huge demonstration and a parade in which every nearby city and community will be invited to take part, Mr. Larson said.

Construction of ten exhibit palaces and numerous other buildings will be pushed immediately after the ground breaking, with an administration building and probably one or two other smaller structures rising before that date.

The exposition will continue during August and probably over Labor Day.

Hennessy Enters Business Firm

H. J. Hennessy, Standard Oil employee, has purchased an interest in the Service Shop, 2224 Macdonald avenue, and will be associated with C. L. Peterson, who recently purchased the interest of James Anderson.

The firm handles linoleum and window shade sales and service. Peterson has secured a patent on a linoleum base, which he is manufacturing here and which has attracted attention of large linoleum firms and furniture houses.

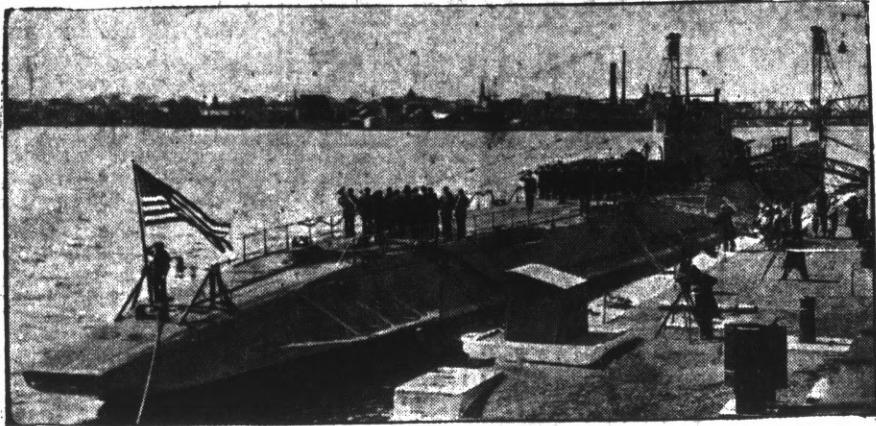

Hennessy has been with the oil company for 15 years and has many friends who will wish him success in his new venture.

GRAHAM-PAIGE DEALER TELLS NEW FEATURES

Adopted for use on three series of Graham-Paige sixes and the eight cylinder series, the modern type four-speed transmission provides superior pickup and climbing ability, smoother running at high speeds, ease of operation and improved fuel economy, says Harry Semar, Graham-Paige dealer.

"Engineers for years have sought to build, without sacrificing rapid pickup and hill-climbing ability, an automobile capable of high road speed at low engine R. P. M. However, a high gear ratio makes it necessary to hold down the engine speed, decreases accelerating and climbing ability, while a low gear ratio, for good pickup and hill-climbing, requires excessive speed for fast travel, with resultant noise and vibration.

"The Graham-Paige solution of the problem is a high-geared rear axle, insuring low engine speed at high road speeds, with a quiet and efficient internal-gear third speed that provides brilliant acceleration and hill-climbing ability.

"In third, the car has the increased pulling power ordinarily obtained by the use of second, yet this third gear is capable of driving the car at 50 or 55 miles an hour, and does so without the usual gear noises.

"In direct drive, with a rear axle ratio of 3.64 to 1, engine speed is 25 per cent lower than in cars of average gear ratio. At 60 miles an hour, the engine of the Graham-Paige revolves no faster than in three speed car at 45 miles an hour. At this comparatively low engine speed, engine noise is minimized, and there is not the roaring, or the vibration of engine and drive shaft, that usually results from very

"The improved four-speed transmission is not an experiment. It was used during the last year in a previous eight-cylinder Paige model, where its advantages were found to be so great that it was adopted for four series of the new Graham-Paige cars. It not becomes available to the many motorists whose purchases are that usually results from very

The Lifetime Dining Suite A Real Bargain!

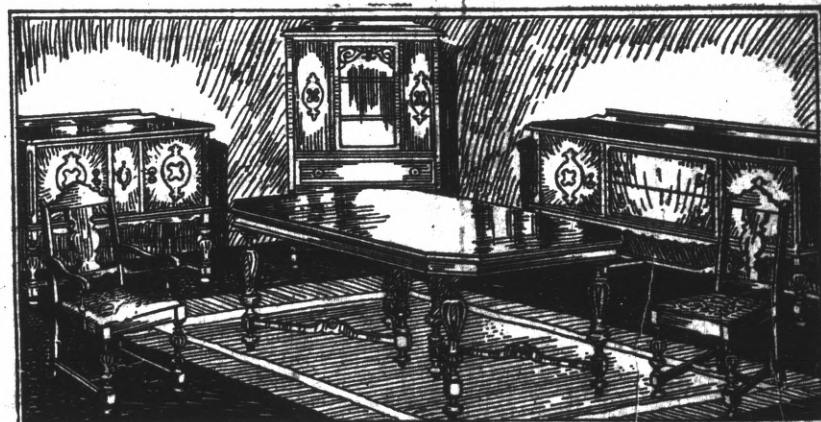

Table and Six Chairs

We call this Suite "The Lifetime" because it is so sturdily constructed that it will last a generation, and more. Durability is not all, however, as the combination walnut veneer over hardwood takes an unparalleled polish, and with the chairs which are upholstered in a rich, red Jacquard Velour, the suite is really sumptuous and yet in the very best taste for substantial families.

If it were not an unalterable Schrader policy of advertising things exactly as they are, this suite could be sold for new, as one cannot tell the difference by looking at it. However, this furniture has been used only a very short time and was originally sold at \$157.50.

While this Suite includes only the table and six chairs, the pattern is the accepted Tudor which means that China Cabinet, Buffet or Serving Table can be added in the future from odd pieces in our stock to match.
